WEBINAR ON ISOMERISM IN CO-ORDINATION COMPOUNDS

Our college looks forward for the bright future of students in their respective subjects. One such work is a webinar through Google meet, organized by dept of Chemistry on the topic "Isomerism in co-ordination compounds" on 22/9/2021. We invited prof. G. Nageswara Rao garu, former vice chancellor, AU as resource Person.

Co-ordination compounds is a huge topic with great importance. The topic isomerism in coordination compounds was well explained by the the Resource person. He explained about the importance of isomers in co-ordination compounds and different types of isomerisms.

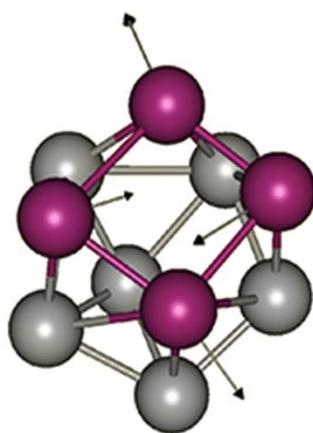

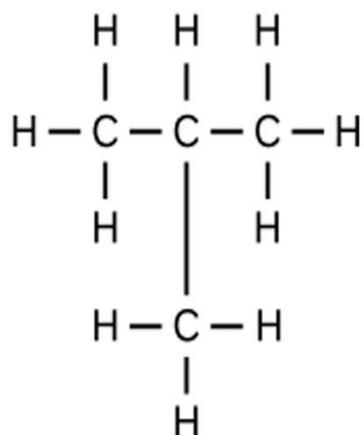

Structural isomers have the same molecular formula, but different arrangements of the atoms in the molecule the compounds differ in the order the atoms are connected.

Structural Isomers

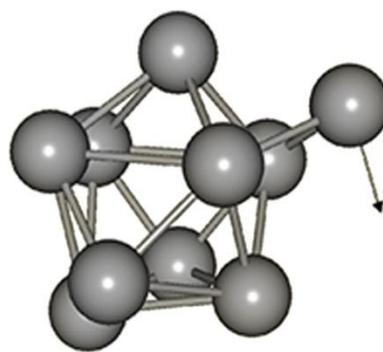

Butane

Isobutane

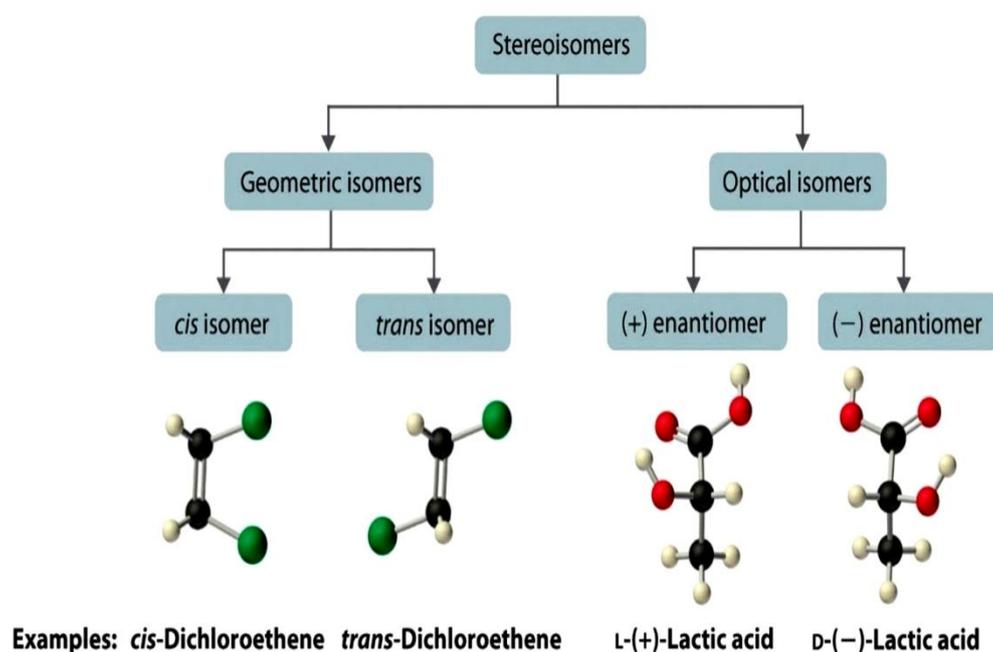

1 - 2

9 - 13

Stereoisomers have both the same molecular formula and structural formula (atoms connected in the same way) but differ in the spatial arrangement of the atoms in the molecule.

Stereomerism & its Types
